Making Your Life Easier at the Time of Sale

Residential Code Compliance is an inspection process implemented in March 2006 used to determine if residential homes are in compliance with Village code prior to change in ownership. The purpose of the program is to:

- Maintain the health, safety, and welfare of the community
- Ensure the integrity and code compliance status of the housing stock
- Preserve the curb appeal and aesthetic standards of the Village
- Uphold property values in Bayside

Since 2006, the Village of Bayside has conducted 717 residential code compliance inspections. In 2014, 55% of Code Compliance inspections have resulted in the discovery of work that had been completed without a building permit.

Selling a home can be a challenging process. There are several steps you can take to make the process run smoothly.

Schedule a Code Compliance before or when listing your home for sale. When going through a Code Compliance, the Village's Building Inspector may find non-compliant items to fix prior to selling your home. The process may take some time if there are items to be addressed, so apply as soon as possible for your convenience. The certificate is good for one year.

Apply for permits prior to work being done on your home.

If you have a question of whether or not to pull a permit, ask our Building Inspector. During the Compliance process, the Building Inspector will reconcile all work that has been done in the home with the permits that have been pulled.

Play it smart and avoid double fees.

Double fees are charged when work is completed on a home before permits are issued.

Certain projects require approval by the Village's Architectural Review Committee.

If you need Architectural Review Committee approval on a project associated with a Code Compliance, please be aware it can take 2 to 3 weeks to go through the review process.

What slows down the Code Compliance process?

- Applying for a Code Compliance after receiving an offer
- Need for Architectural Review Committee approval
- Not pulling permits
- High demand from March-June and August-October, leaving our Building Inspector with a large number of Code Compliances to complete in a short time frame

So what can you do now?

Begin by filling out the code compliance application and paying the fee to start the process. Application fees are assessed based on the square footage of your home and can range from \$140-\$280.

Questions?

Please feel free to contact the Village's Building Inspector at (414) 351-8811. Want to speak with the inspector in person? The Building Inspector has office hours at Village Hall on:

- Mondays 2 pm-3pm
- Wednesdays 10 am-11am
- Fridays 10 am-11am

262-521-9710 • mymartinizing.com

Trick or Treating

Bayside will host Trick or Treating on Sunday, October 26 from 1 to 4pm. As you trick or treat throughout the Village make sure to watch out for vehicles and bicycles. As always, vehicles should drive slowly and yield to pedestrians.

Join Us for Fright Night

Make sure that your Halloween plans include heading to Ellsworth Park for Bayside's Fright Night on Friday, October 31. The fun starts at 6:30pm. There will be popcorn, hot dogs, and trick or treat bags for the kids as well as hot chocolate and apple cider. If the weather permits, there will also be a bonfire.

After you warm up, you can work off all the candy with some dancing. A DJ will be on hand to provide some great music. And don't forget there will be a costume judging contest! Who will have the best costume this year? Fright Night is sure to be filled with surprises and lots of fun for you and your family.

Two of the year's most popular events, the **Fall Clean-Up Day** and **Fright Night**, are almost here. The Village needs your help to make these events possible.

Fright Night: Friday, October 31 from 6:30pm to 8:30pm

Fall Clean-Up Day: Saturday, November 15 from 10am to 2pm

If you can volunteer for either of the events, please call Village Hall at 414-351-8811.

Village of Bayside Service Anniversaries

The Village of Bayside would like to recognize the following employees who are celebrating a service anniversary in August:

Francesca Ehler, Police Sergeant, 22 years

Eric Miller, Police Officer, 16 years

Thank you Fran and Eric for all of your hard work for the Village of Bayside!

23	24	25	26	27	28	29

Loose Leaf Collection

It's a beautiful time of year when the leaves are changing colors on the trees throughout the Village. Those beautiful leaves will also be falling soon which means the Village will be starting loose leaf collection. Loose leaf collection will begin October 20 and will run through December 4. On the collections calendar and map you can view your specific days of pick-up, designated by quadrant. Loose leaf collection takes place in the opposite week of yard waste collection.

Help the Village keep the roads safe and our Village clean, by not placing leaves or yard waste on the road as it creates a safety hazard for motorists, pedestrians, and bicyclists. Please have any yard waste or loose leaves to be collected out by 7am on the day of the collection. All yard waste and leaf piles must be separate or they won't be collected.

Loose Leaf Guidelines

- Please set leaves at the edge of the street, out of the ditch, and not in the road for pickup.
- Leaves do not need to be put into a bag(s) for collection (during loose leaf season). Bagged leaves will be picked up during yard waste collection weeks. Please do not use plastic bags for leaves.
- Please have all loose leaves consolidated into one pile per property. Do not mix leaves with other yard waste, such as branches or twigs.
- Place material away from mailboxes or other structures so that it may be easily accessible. Loose leaves are collected using equipment that functions similar to a vacuum.

Garbage & Recycling Notes

Have garbage & recycling out at 7 am for pickup.

Bag all garbage.

Use only the provided container(s). Items outside of the container will NOT be picked up.

Keep your container three (3) feet away from other containers or structures (mailboxes, etc.).

Certain items require a special pickup (Appliances, large items, and excessive amounts). Contact Village Hall @351-8811 for information.

You can put all recyclable items into one container for collection (do not separate paper and plastics). Plastics #1-7 are able to be recycled.

2014 Collection Notes

Monday Garbage Route - North of Fairy Chasm (Includes Bayside Woods & Bayside Commons)

Tuesday Garbage Route - South of Fairy Chasm

Recycling - North of Fairy Chasm (Includes Bayside Woods & Bayside Commons)

Recycling - South of Fairy Chasm

Village Offices Closed

Yard Waste & Leaf Collection

- Yard Waste/leaves should be placed at the edge of the roadway, away from mailboxes and other objects.
- Combine all like materials into one pile per property (do not mix leaves with yard waste). Multiple piles per property will not be collected.
- Excessive piles require a special pickup. Visit Village Hall to schedule.
- Crews will not collect contractor generated yard waste.

General Election Deadlines and Information

September 18:

Deadline for Clerks to mail absentee ballots to those with valid requests on file.

October 15:

Last day to register to vote by mail. Don't forget to include appropriate proof of residence document(s) with the registration form.

October 20:

In Person Absentee Voting begins at Village Hall, provided that ballots are available.

October 30:

Last day to request an absentee ballot to be mailed to you.

October 31:

Last day to register to vote and to vote absentee at Village Hall before the Tuesday, November 4 Election.

November 4:

General Election. Bayside residents can register and vote at the Bayside Middle School multi-purpose room between 7am and 8pm.

State offices to be elected include Governor, Lt. Governor, Attorney General, Secretary of State, State Treasurer, Representative in Congress, State Senator (odd-numbered districts), and Representatives to the Assembly (all districts).

Annual Milwaukee Lakefront Marathon on October 5

Please remember the annual Milwaukee Lakefront Marathon will be taking place on Sunday, October 5. The race begins at 7:30 am at Grafton High School and ends at Veterans Park in Milwaukee.

Part of the marathon goes through Bayside and will affect traffic. The following streets will be temporarily closed down for the race:

- N Port Washington Road
- West and E Fairy Chasm
- N Meadowlark Lane
- E Manor Circle
- N Lake Drive

Please visit www.milwaukeekeelakefrontmarathon.org for more information regarding this event.

Fall Clean Up Day

The last Clean Up Day of 2014 is coming up! Clean out your closets, garage, and attics before winter comes! Mark your calendars for Saturday, November 15 from 10 am to 2 pm. ****Please note the change in date.****

Remember, you must be a Bayside resident and must bring a donation to participate. Non-perishable food items will be collected for the Hunger Task Force and monetary donations will be collected for the Ronald McDonald House of Eastern Wisconsin.

Heading into Fall

Be sure you aren't heading for a fall!

For adults of all ages, falls are the leading cause of nonfatal injuries and hospital admissions for trauma.

For those over age 65, falls are the leading cause of injury and/or death.

You can prevent falls and injury by:

- Exercising regularly to maintain strength and balance.
- Taking your time getting up from a chair or out of bed--be aware of your surroundings.
- Keeping stairs and walking areas clear of obstruction.
- Being sure your home has good lighting, including switches at the top and bottom of stairs.
- Using non-slip mats and grab bars if needed in the bathroom to prevent slips and falls.
- Being aware of uneven surfaces in your home such as throw rugs that can slide or bunch up.
- Wearing sturdy, well-fitting shoes inside and outside your home.

If you or a loved one are an older adult and worried about falls, you can contact the North Shore Health Department or North Shore Fire Rescue to request a home visit to get recommendations for fall and fire prevention in your home. The North Shore Health Department can be reached at 414-371-2980.

Working Smoke Alarms Save Lives: Test Yours Every Month

The National Fire Protection Association (NFPA) is preparing to kick off its 2014 Fire Prevention Week Campaign. This year's theme, Working Smoke Alarms Save Lives: Test Yours Every Month, emphasizes the importance of having working smoke detectors that are able to

provide early warning in the event of a fire.

The NFPA provides startling statistics related to smoke detectors, including:

Almost three of five (60%) of reported home fire deaths in 2007 to 2011 resulted from fires in homes with no smoke alarms or no working smoke alarms.

- Working smoke alarms cut the risk of dying in reported home fires in half.
- In fires considered large enough to activate the smoke alarm, hardwired alarms operated 93% of the time, while battery powered alarms operated only 79% of the time.

In addition, when smoke alarms fail to operate, it is usually because batteries are missing, disconnected, or dead. While the NFPA and North Shore Fire/Rescue do not generally recommend a specific brand of smoke detector, we do provide the following information to make shopping a little easier:

An ionization smoke alarm is generally more responsive to flaming fires and a photoelectric smoke alarm is generally more responsive to smoldering fires. For the best protection, or where extra time is needed, to awaken or assist others, both types of alarms, or combination ionization and photoelectric alarms are recommended.

It is imperative that every smoke detector gets tested at least once a month. Testing a smoke alarm can and should be a family event. It is a great time to incorporate reviewing and practicing your home escape/evacuation plan and ensuring everyone understands where the designated meeting spot is in the event of a fire.

North Shore Fire/Rescue firefighters will be traveling to most North Shore area elementary schools during the month of October to provide grade specific fire prevention education. North Shore Fire/Rescue encourages every family to reserve some extra time during the month of October to discuss fire prevention and education topics at home. For ideas and information related to fire safety please visit www.nsfire.org and the NFPA's resources at www.sparky.org/parentpage/fpwkids.htm or www.nfpa.org/safety-information.

Municipal Water

Updates on the voluntary resident-driven municipal water project can be found on the Village website, www.bayside-wi.gov. You can also get information by stopping in Village Hall or calling 414-351 8811.

Distracted Driving

Have you ever driven the length of a football field blindfolded? Each day in the US, more than 9 people are killed and more than 1,060 people are injured in crashes that are reported to involve a distracted driver.

- Drivers in their 20s make up 27 percent of distracted drivers in fatal crashes
- 1 in 5 young drivers think texting makes no difference in driving performance
- In 2013, there were 8,492 convictions of inattentive driving in Wisconsin
- Studies show that drivers who send or receive text messages focus their attention away from the road for an average of 4.6 seconds. At 55 mph, this is equivalent to driving the length of a football field blindfolded!
- The reaction time is delayed for a driver talking on a cell phone as much as it is for a driver who is legally drunk.

DISTRACTED DRIVING INCLUDES:

- Texting
- Using a cellphone or smartphone
- Eating and drinking
- Talking to passengers
- Personal grooming
- Reading (including maps)
- Using a navigation system
- Watching a video
- Adjusting a radio, CD player, or MP3 player

Wisconsin law prohibits texting while driving. Please be aware that the Bayside Police Department will be looking for distracted drivers and ticketing accordingly. Make an effort to reduce distracted driving and to keep our community safe. All of the distractions can wait until you've reached your destination.

A Special Thanks To Our 2014 Community Event Sponsors

All of our great Bayside Community Events including Clean Up Days, the Village Picnic, and the Bayside 5k are made possible by our community event sponsors and volunteers. We could not hold these events without the generous donations of our sponsors. Thank you for supporting community events in Bayside!

Interested in becoming a community event sponsor in 2015?

Contact Rebecca VanRegenmorter at 414-351-8812 or by email at rvanreg@bayside-wi.gov for more information.

Head Lice Prevention: Being Prepared To Protect Your Child

by Linda G. Rabinowitz, MD

Each year, millions of children are affected with head lice (*Pediculus capitis*), a very challenging problem requiring diligent and persistent treatment. School personnel work hard to control the problem but it is up to parents to become educated and vigilant in order to truly control its spread.

In 2010, the American Academy of Pediatrics liberalized its position on head lice essentially recommending that “no-nit policies for return to school should be abandoned” because head lice do not cause serious medical problems and too many children were missing too much school. However, each school district may establish their own guidelines: the Fox Point-Bayside School District maintains a Head Lice Nit Free policy (hair must be free of all nits). Regardless, parents need to know—more than ever before—head lice basics and how they can treat and prevent infestation in their families.

Head lice are small, wingless, crawling insects that measure only a few millimeters. They prefer to stay in the hair and close to the scalp where they can feed. Without a blood meal (biting), they can only survive for 1-2 days. They lay eggs (nits) close to the scalp, firmly attached to the hair shafts, where the warmth of the body helps them to hatch. The nits hatch within 6-9 days and it takes the new nymphs another week or so until they are capable of laying eggs. Unless all of the nits are removed or destroyed, the entire life cycle will continue to progress.

Head lice are human parasites only, transmitted through head-to-head contact or by crawling on furniture or clothing to find another head. They cannot survive on animals. They love clean hair. Greasy or product-coated (oils, pomades, gels, etc.) hair makes it harder for the nits to attach to the hair shafts. Certain odors can repel lice, and many natural products marketed for head lice treatment contain these fragrances: tea tree oil, eucalyptus, peppermint, rosemary, and citronella, to name a few.

Guidelines for the treatment of head lice include:

1. A correct diagnosis must be established. Consult your doctor if the diagnosis is unclear.
2. Frequently combing wet hair with a special metal nit comb—not the plastic ones that are supplied with several OTC products—to remove all of the nits is key. LiceMeister is one excellent comb recommended by the National Pediculosis Association. Nit-picking through dry hair is also critical.
3. Numerous natural products, home remedies, prescription medication and OTC product treatments are available. They may contain salt solutions (dehydrates the lice), alcohol (interferes with lice respiratory apparatus), or enzymes (dissolves the nits and lice). Many other products contain pesticides.
4. Pajamas and linens must be changed, and laundered and dried on high heat. Alternatively, instead of doing dozens of loads of laundry, all items including stuffed animals, etc., can be tied up in large plastic bags for a couple of weeks. Lice cannot survive more than 24-48 hours without a blood meal. Any newly hatched lice in the plastic bags will die without a meal. Another option is to run fabrics through a hot clothes dryer for 30 minutes to destroy lice and nits.
5. Vacuum the house including upholstered furniture. Dispose of the vacuum bag in the garbage. Chemical treatments of the house are unnecessary.

Guidelines for prevention of head lice:

- Cut hair as short as is acceptable. Long hair should be tied back or braided to keep hair from flying around and making contact with others.
- Use hair products on your child’s hair every day before school. Leave-in conditioners, gels, sprays, oils are all deterrents, especially if they contain the fragrances mentioned above.
- Check hair daily.
- Watch for itching.
- Launder/hot dry hats and jackets often.
- Sharing personal items – combs, hats – should clearly be avoided.

Many websites contain good and reliable information on head lice: the National Pediculosis Association is an excellent resource (www.headlice.org). Learn as much as you can, ask questions or call your pediatrician or dermatologist for help when you need it. Remember, this is an extremely common problem that does not discriminate. Even Hollywood celebrities have had to battle head lice...you can find websites that have clips of Kelly Ripa discussing her experience with head lice on her show. You are not alone. We all need to work together and help each other so that our communities and our children can be lice-free.

Linda G. Rabinowitz, M.D. is board-certified by the American Board of Pediatrics and by the American Board of Dermatology, currently an independent practitioner at Pediatric Dermatology and Laser Center, LLC, in Mequon. www.pediatricdermlaser.com, 262-241-1111, email: lgr@pediatricdermlaser.com.

Boys and Girls Adaptive Volleyball Camp

NHS varsity girls' volleyball head coach, Dann Jacobson, will instruct this camp on Sunday, November 2, from 6-7:30pm in Nicolet Gym 1. Appropriate for children ages 8-14 with physical and/or cognitive disabilities. Equipment and instruction are modified to meet participants' needs. The camp is free but we ask that you please pre-register so we know how many participants to accommodate (program #111116-01). Please visit our website at www.nicolet.us/activities/recreation.cfm or call 414-351-7566 for more details.

Looking for the Ideal Spot to Hold your Next Event?

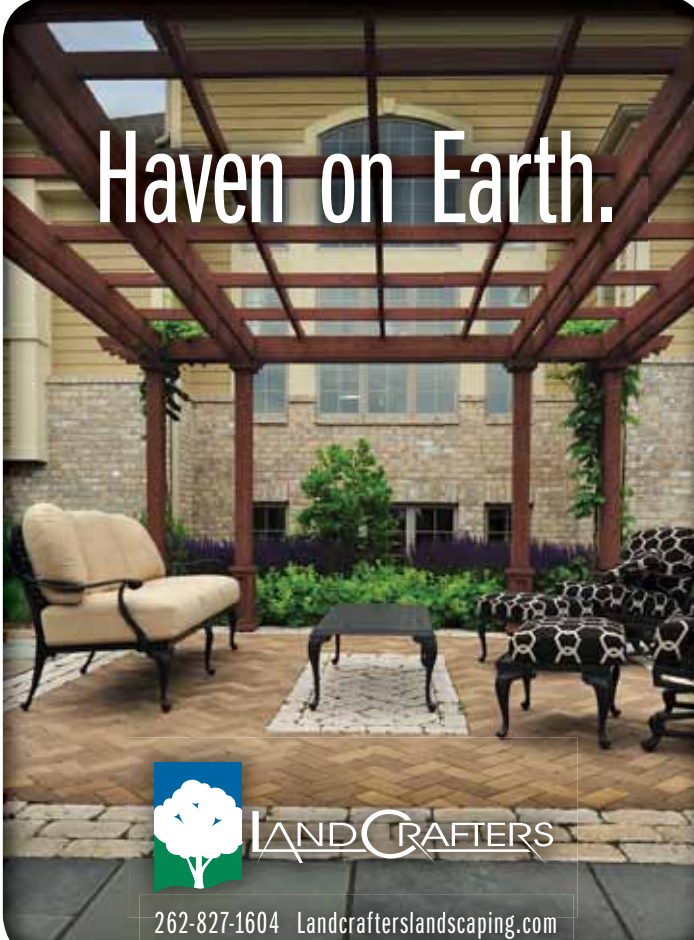

How about Nicolet High School? More than 370,000 square feet of beautiful space awaits, including a pool, cafeteria, classrooms, community rooms, gyms, practice fields and much more. It could be the optimal setting for your next event.

Contact Nate Brooks at 414-351-7568 or nate.brooks@nicolet.us to reserve your facility today!

FIRE PREVENTION
WEEK

"Working Smoke Alarms
Save Lives;
Test Yours Every Month!"

2014 Fire Prevention Week Quiz

Take the following quiz to see how much you already know about smoke alarms.

1. **When a smoke alarm fails to operate, it is usually because:**
 - a. The fire is too far away.
 - b. The smoke alarm is too old.
 - c. Batteries are missing, disconnected, or dead.
 - d. Batteries are inserted incorrectly
2. **_____ fire deaths result from fires in homes with no smoke alarms or no working smoke alarms.**
 - a. One of every five.
 - b. Two of every five.
 - c. Three of every five.
 - d. Four of every five.
3. **NFPA's 2014 Fire Prevention Week theme is what?**
 - a. Smoke Alarms, A Sound You Can Live With!
 - b. Working Smoke Alarms Save Lives. Test Yours Every Month!
 - c. Test Your Smoke Alarms Today!
 - d. Does Your Smoke Alarm Beep Where You Sleep?
4. **How should you test a smoke alarm?**
 - a. Push the test button using your finger.
 - b. Use a stick or broom to push the test button.
 - c. Light a fire in the fireplace.
 - d. Burn toast in the toaster
5. **How often should you test all of your smoke alarms?**
 - a. Smoke alarms don't need to be tested.
 - b. Test smoke alarms when you change your clocks each fall.
 - c. Test smoke alarms at least once a month.
 - d. Test smoke alarms every holiday.
6. **A smoke alarm should be installed where?**
 - a. Inside each bedroom room and on every level of the home.
 - b. Inside each bedroom, in the kitchen and on every level of the home.
 - c. Inside each bedroom, in the kitchen, in the attic and on every level of the home.
 - d. Inside each bedroom, outside each sleeping area and on every level of the home.
7. **Smoke alarms should be replaced every...?**
 - a. 5 years from installation.
 - b. 5 years from manufacture.
 - c. 10 years from installation.
 - d. 10 years from manufacture.
8. **If your smoke alarms sounds whenever you cook, you should:**
 - a. Replace the smoke alarm with a photoelectric type alarm and be sure the alarm is at least 10 feet from the stove.
 - b. Remove the battery and place it at least 10 feet away from the alarm.
 - c. Remove the smoke alarm so it does not sound when you cook.
 - d. Cook with low heat.
9. **If your smoke alarm makes a chirping sound you should:**
 - a. Replace the smoke alarm.
 - b. Replace the battery.
 - c. Test the alarm.
 - d. Move the alarm to another location.
10. **With today's modern furnishings and construction, you may have as little as ____ to escape a home fire.**
 - a. 15 minutes
 - b. 10 minutes
 - c. 5 minutes
 - d. 3 minutes
11. **If the smoke alarm sounds, you should do what?**
 - a. Stop what you are doing and investigate.
 - b. Gather precious items and get outside.
 - c. Stop what you are doing and get outside.
 - d. Try to put out the fire.
12. **The Little Rosalie video focuses on what four things to do if the smoke alarm sounds?**
 - a. Get up, know 2 ways out, get outside, go to your outside meeting place.
 - b. Get up, find out what's wrong, get outside, go to your outside meeting place.
 - c. Find out what is wrong, call the fire department, get outside, go to your outside meeting place.
 - d. Get up, push the hush button, get outside, go to your outside meeting place.

Meet the Carlton Family!

ONE REASON that Brenda and Roger Carlton were drawn to their home in Bayside was because of the lush spacious yard. The bonus was the mini apple orchard of seven apple trees in the backyard. “The trees produced so many apples--” Brenda said, “After moving in we decided to have an apple picking party. In September, friends, family and neighbors come over to pick apples and share their favorite apple recipes. Now we have three trees, but as long as they keep producing good apples, we’ll keep having apple picking parties!”

Meet the Carlton’s—Roger, Brenda and their three daughters Elizabeth, Sophia and Laura.

ROGER served four years in the U.S. Marine Corp after high school where he was stationed in Hawaii. After, he moved to Milwaukee to attend UWM and met Brenda. Roger received a Bachelor of Arts degree in Psychology and a Master of Science degree in Educational Psychology. Brenda received a Bachelor of Science degree in Education (Elementary 1-8).

After college Roger worked as a social worker and Brenda worked as an elementary school teacher. After they were married, almost 25 years ago, they purchased their first home together on the east side of Milwaukee. They started to raise their three daughters, Elizabeth (19), Sophia (17) and Laura (13). A short time before Laura was born they were enjoying a long bike ride along the north shore of Milwaukee where they discovered and fell in love with the peaceful scenic neighborhood of Bayside. They were ready to move out of their college neighborhood and into a family friendly place they love and call home today.

The first night they were in Bayside Brenda recalls, “I remember thinking how quiet and beautiful it was to look up into the sky and see the stars so clearly. It felt like we were vacationing at a resort up north and far away from the big city. That’s the beauty of Bayside. You can work in the hustle and bustle of the city and within minutes come home to your own little retreat.”

“Roger is with the girls by the Maple tree we planted in front of our house in 2003. It’s amazing how much that Maple tree has grown since then-- just like our little girls! They have grown into magnificent young women. Oh how the time flies!”

While in college Roger bought his first rental property. Over the years, he and Brenda have purchased and rehabilitated many homes primarily throughout the Milwaukee area. They have established a rental property business. In addition to raising the girls, this is now their full time job. “I’m the office manager and coordinate apartment showings, leasing contracts and tenant communications.” Brenda said, “Roger heads up the property restoration and day to day property maintenance projects. For many years he has had a strong interest in property rehabilitation and likes to take on challenging projects.”

“Roger draws inspiration from his mother—thinking about how hard she worked when he was growing up. His father died at a young age and left his mother to manage their dairy farm and raise 5 teenaged boys in rural Shawano. Roger’s mother worked from sun up to sun down day after day without complaint. When life gets overwhelming, Roger thinks about all that his mother had to go through.”

BRENDA enjoys gardening, biking and is learning the art of stained glass. “As a child, I learned to do a variety of handiwork like sewing, knitting, cross-stitching and macramé, but I haven’t had much time to do any of that since. A few years ago, I took a stained glass class

through the Nicolet Rec Department and have come to love this art. I have a lot of ideas and hope to do them soon. My last project was a butterfly and I’m currently working on kitchen cabinet panels of a stained glass chickadee, cardinal, heron and owl.

“**ELIZABETH** will be a sophomore in college and is attending the Fashion Institute of Technology—FIT—in New York. She has always enjoyed creating through sewing. This summer, she completed an internship in Spain and worked for fashion designer, Alex-Vidal.”

SOPHIA is a senior at Nicolet. She’s been a varsity swimmer for the past three years and is excited for her fourth year as she is a captain

ELIZABETH

on the swim team! Sophia is an active participant within the Nicolet Theater Department. She was in *Joseph and the Amazing Technicolor Dreamcoat* and *The Elves and the Shoemaker*. Currently, Sophia is looking at colleges and is planning to pursue a degree in civil engineering. "This past summer, Sophia enjoyed lifeguarding and coaching water ballet at the pool."

Laura at 2014's Fox Point Water Ballet Show. She and her "group" did their routine to the song, I'm Gonna Rock and Roll All Night. The wig and blow up guitar made them true rock 'n rollers before they did their water ballet routine.

LAURA is in 7th grade at Bayside Middle School. During the summer she was on the swim team and water ballet team at the Fox Point Pool. During the school year she swims on the Banana swim team and participates on Bayside Middle School's forensics team. Last year, Laura

qualified to compete in the State forensic s completion.

Roger enjoys running and completed two Tough Mudder events this year. He and Laura like to run together. "Laura participated in a fantastic group called Girls on the Run a few years ago and has enjoyed running ever since."

"We also have two furry family members. A miniature poodle, Lily, and a Bichon Frise, Jada. We adopted them from the Humane Society

after it closed down Puppy Haven Farm. The dogs have been a delightful addition to our family!"

The Carlton family likes to road trip! "We had a motorhome when the girls were younger. We took long road trips. Lately, we spend most of our family vacation time at our cottage where we enjoy swimming, kayaking, tubing and cruising the lake on a boat or jet ski. Another favorite--roasting marshmallows around the campfire and watching the sun set!"

THE CARLTONS have a message for their Bayside neighbors. "Let's bring back the block party! It's a great way to stay connected and meet new Bayside neighbors! Or, stop by and say hello. We'd love to meet you!"

When you purchase or sell your home, you change the very order of things...from WHAT IS, to WHAT IS POSSIBLE!

15 Fun Ideas For Pumpkins

By Tori S. Bevins

1. Paint a silly face on it.
2. Carve it into something spooky.
3. Cut it open and explore the insides.
4. Create different and removable faces on it with play dough.
5. Gather a few friends for pumpkin bowling.
6. Paint the bottom of the pumpkin and make pumpkin prints using the bottom like a stamp.
7. Roast pumpkin seeds.
8. Carve pumpkins with cookie cutters for a more precise image.
9. Clean out the inside and use the shell as a bowl for pumpkin soup.
10. Create a piece of unique art with painted seeds.
11. Decoupage your pumpkin.
12. Make a bird feeder: cut the pumpkin in half horizontally, clean it out, add bird seed.
13. Cut open the top and fill the top with fall foliage to make a unique centerpiece or vase.
14. Dry and save pumpkin seeds for growing more pumpkins in the spring.
15. And, of course, make a pumpkin pie.
